Project Repository (Backup)

Document	Project Repository (Backup)	Release	17/08/26 V1.0
Project	BRN WMS	Project code	200-WMS-26-001-00
Project period	05/01/26–24/08/26		

1. Purpose

This record identifies the backup mechanisms protecting BRN WMS source code and SDLC work products against loss of the primary repository, per the Project Repository record (Section 2).

2. Code backup

Field	Value
Backup mechanism	Secondary Git remote
Backup remote name	backup
Backup remote URL	git@github.com:thanakorninbox-dev/wms-app.git
Configuration	Secondary remote is configured for origin/main.
Sync status	Maintained by the Developer; confirmed in sync with origin/main.
Restoration check	Performed manually by the Developer and confirmed successful. Carried out outside version control, so no Git artefact records it.

3. Document backup

Field	Value
Backup mechanism	Exported PDF package, external to the Git repository
Location	sdlc-delivery/ in the repository, generated from sdlc/ by scripts/build-sdlc-delivery.sh
Contents	42 PDFs covering the PM, SI, and Other Document work products; regeneration pending for the 4 Meeting Records
Verification	Verified as non-empty and readable

4. Backup verification items

ID	Item	Owner	Required before
BK-001	Confirm the backup remote is reachable and up to date with origin/main.	Developer	Closed — confirmed by the Developer
BK-002	Perform and record a restoration check (clone from backup and verify integrity).	Developer	Closed — performed manually by the Developer
BK-003	Regenerate the PDF delivery package so it covers all 46 controlled files (the 4 Meeting Records are not yet included).	Developer	Final delivery
